### READ LABEL COMPLETELY BEFORE USE

#### HANDLING PRECAUTIONS

Personal Protection: When mixing or applying, avoid contact with skin and eyes. Wear full protective clothing, gloves and goggles. Do not eat or drink while using. Wash hands and face before meals and after work. Wash protective clothing after work.

**Equipment:** Apply using accurately calibrated and maintained equipment in accordance with the New Zealand Standard for the Management of Agrichemicals (NZS8409). Flush spray equipment thoroughly with water after use.

Storage: Store in original container tightly closed and in a locked, dry, cool, well ventilated area away from fertilisers, feed, seeds and foodstuffs. Keep out of reach of children. Store in accordance with NZ 8409 Management of Aprichemicals.

Spillage: Move non-essential people from the area. Wear appropriate protective clothing and prevent material from entering waterways. Absorb spills with inert material and place in waste containers. Sweep up solids without creating dust. Wash area with water and absorb with further inert material. Dispose of waste safely (such as to a suitable landfill).

Product Disposal: Empty the sprayer in the area of the crop being treated, in an area left unsprayed or underdosed for the purpose; ensure the maximum dose approved for the crop is not exceeded.

Container Disposal: Triple rinse container and add rinsate to spray tank. Dispose of cleaned container at your local AGRECOVERY container collection site.

**Safety Data Sheet:** Additional information is provided in the SDS available from your supplier.

#### FIRST AID

If swallowed DO NOT induce vomiting. For advice, contact the National Poisons Centre 0800 Poison (0800764 766) or a doctor immediately. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If concentrate is splashed in the eyes, flush with running water immediately.

#### EMERGENCY RESPONSE

In a transport emergency call 111, Police or Fire Brigade.

#### GENERAL INFORMATION

BackRow Max is an adjuvant designed to reduce the variability in performance of crop protection products applied pre-emergence of the crop

FOR USE ONLY AS AN AGRICULTURAL AND HORTICULTURAL ADJUVANT Maximum concentration: 3.5% of the final spray solution

#### MIXING

Half fill the spray tank with clean water and commence agitation. Add the recommended quantity of BackRow Max. Then add the recommended quantity of crop protection product and the remaining balance of water whilst maintaining agitation throughout.

#### DIRECTIONS FOR USE

BackRow Max should be applied at a rate of 400 ml per hectare, irrespective of water volume

#### CONDITIONS OF SUPPLY

All goods supplied by us are produced under rigid quality control procedures which assure the purchaser that at the time of sale they are physically suitable for use in the manner stated. However, to the extent permitted by law, buyers and/or users of the goods accept that neither the manufacturer, or Agri Solutions Ltd as the distributor have any liability or responsibility whatsoever for any loss, damage or injury whether in contract or tort, whether direct, indirect or consequential howsoever arising in connection with the supply of these goods.
