HARMFUL - KEEP OUT OF REACH OF CHILDREN

ADJUVANT FOR ORGANIC PRODUCTION

A multi-purpose adjuvant for use with Insecticides, Miticides, Fungicides, Herbicides, Plant Growth Regulators and Foliar Nutrients

ACTIVE INGREDIENT

Alcohol Ethoxylate......135.8 g/L

Read label before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required.

WARNING – Flammable liquid and vapour. Causes serious eye irritation.

NOT REGULATED AS A DG FOR TRANSPORT refer to section 14 of the safety data sheet for more information.

PRECAUTIONS

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

STORAGE: Keep out of reach of children. Store in original, tightly closed container, in a secure place.

PERSONAL PROTECTION: Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Keep container tightly closed. Ground and bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use non-sparking tools. Take action against static discharge. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

PRODUCT DISPOSAL: In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent materials. Wastes resulting from the use of this product may be disposed of at an approved waste disposal facility.

CONTAINER DISPOSAL: Pack size up to 60L: Triple rinse empty container and add rinsings to spray tank. Discard the container at your nearest Agrecovery collection point or crush and bury container in a suitable landfill. Pack size over 60L: Triple rinse empty container and add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility.

FIRST AID

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs: Get medical advice/attention. IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. IF SWALLOWED: Rinse mouth. Do not induce vomiting.

If poisoning occurs, contact a Doctor or the National Poisons Centre 0800 POISON (0800 764 766). Have the product container or label with you when calling a doctor or poisons centre or going for treatment.

EMERGENCY RESPONSE: In case of fire: Use water fog, foam, dry chemical powder, carbon dioxide (CO2) for extinction.

For hazardous materials or dangerous goods incident: Spill, Leak, Fire, Exposure or Accident Call CHEMTREC Day or Night: New Zealand: +(64)-98010034 / Outside of New Zealand: +1(703)741-5970 (CCN 4897)

GENERAL INFORMATION

OROBOOST is a highly effective surfactant designed for use with insecticides, miticides, fungicides, herbicides, plant growth regulators and foliar fertiliesrs requiring a wetting and spreading agent or penetrant. OROBOOST contains non-ionic and anionic surfactants. OROBOOST enhances the physical and chemical properties of the spray solution and assists in overcoming water repellency of the leaf surface. The efficacy of OROBOOST will not be affected by the pH of the spray mixture. OROBOOST will not influence the pH of the spray mixture.

DIRECTIONS FOR USE

SITUATION	RATE per 100L of Water	CRITICAL COMMENTS
As a general-purpose surfactant to improve spray droplet deposition and spread for foliar fertilisers, PGR and sunscreen products	50 – 100 mL	On waxy or hard to wet surfaces (e.g. forage brassicas, onions) increase the rate to 75 – 100mL/100L.
For contact crop protection products or where the use of a non-ionic or anionic surfactant is recommended on the crop protection label	75 – 200 mL	Use higher rates for hard to wet surfaces.
For vineyard grapes	75 – 100 mL	When used with sulphur products refer to the sulphur label for any temperature use restrictions.
For translaminar or systemic crop protection products	100 – 300 mL	To assist the performance and penetration of insecticides, fungicides and miticides.
Herbicides	100 – 400 mL	Use lower rate for contact herbicides. Use a minimum 300 mL/100 L when herbicide partner requires a penetrating adjuvant. Glyphosate: 100mL/100L for small seedling weeds 200mL/100L for larger or hard to kill weeds

MIXING

Half fill tank with water. Add the required amount of crop protection products while agitating. Add remainder of the water. Add the recommended amount of OROBOOST last and continue agitation until completion of spraying. Do not leave spray mixture overnight. Anti-foam may be added if required. Ensure that all spray equipment is thoroughly cleaned when using OROBOOST for the first time as chemical residues present in such spray tanks and equipment may be loosened. Check filters more frequently during initial application.

PRECAUTIONS: Do not use OROBOOST on pears, persimmons, pomegranates or table grapes between flowering and harvest as fruit marking may occur. Consult Rovensa Next representatives if necessary.

COMPATIBILITY: OROBOOST is compatible with most crop protection products. However, if unsure, conduct a small scale test before spraying on the intended crop. Please refer to crop protection products label use restrictions. NOT FOR AQUATIC USE.

NOTICE OF WARRANTY

CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES:To be read prior to using this product. The directions should be followed carefully together with good application practice. Failure to do so may cause injury to crops, animals, man or the environment. Extraordinary or unusual weather conditions may affect product performance and/or crop injury which are beyond the control of Oro Agri, Inc. (the "Company") or seller. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the Directions For Use. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Company's election, ONE of the following: 1. Refund of the purchase price paid by buyer or user for product bought. 2. Replacement of the product used. To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company/seller offer this product and the buyer/user accepts it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.

Approved pursuant to the HSNO Act 1996, approval code HSR002495. See www.epa.govt.nz for controls applying to the substance. For more information, contact info.au@rovensanext.com OROBOOST is a registered trademark of Oro Agri, Inc. v20250916
